

LCAP GOAL 1

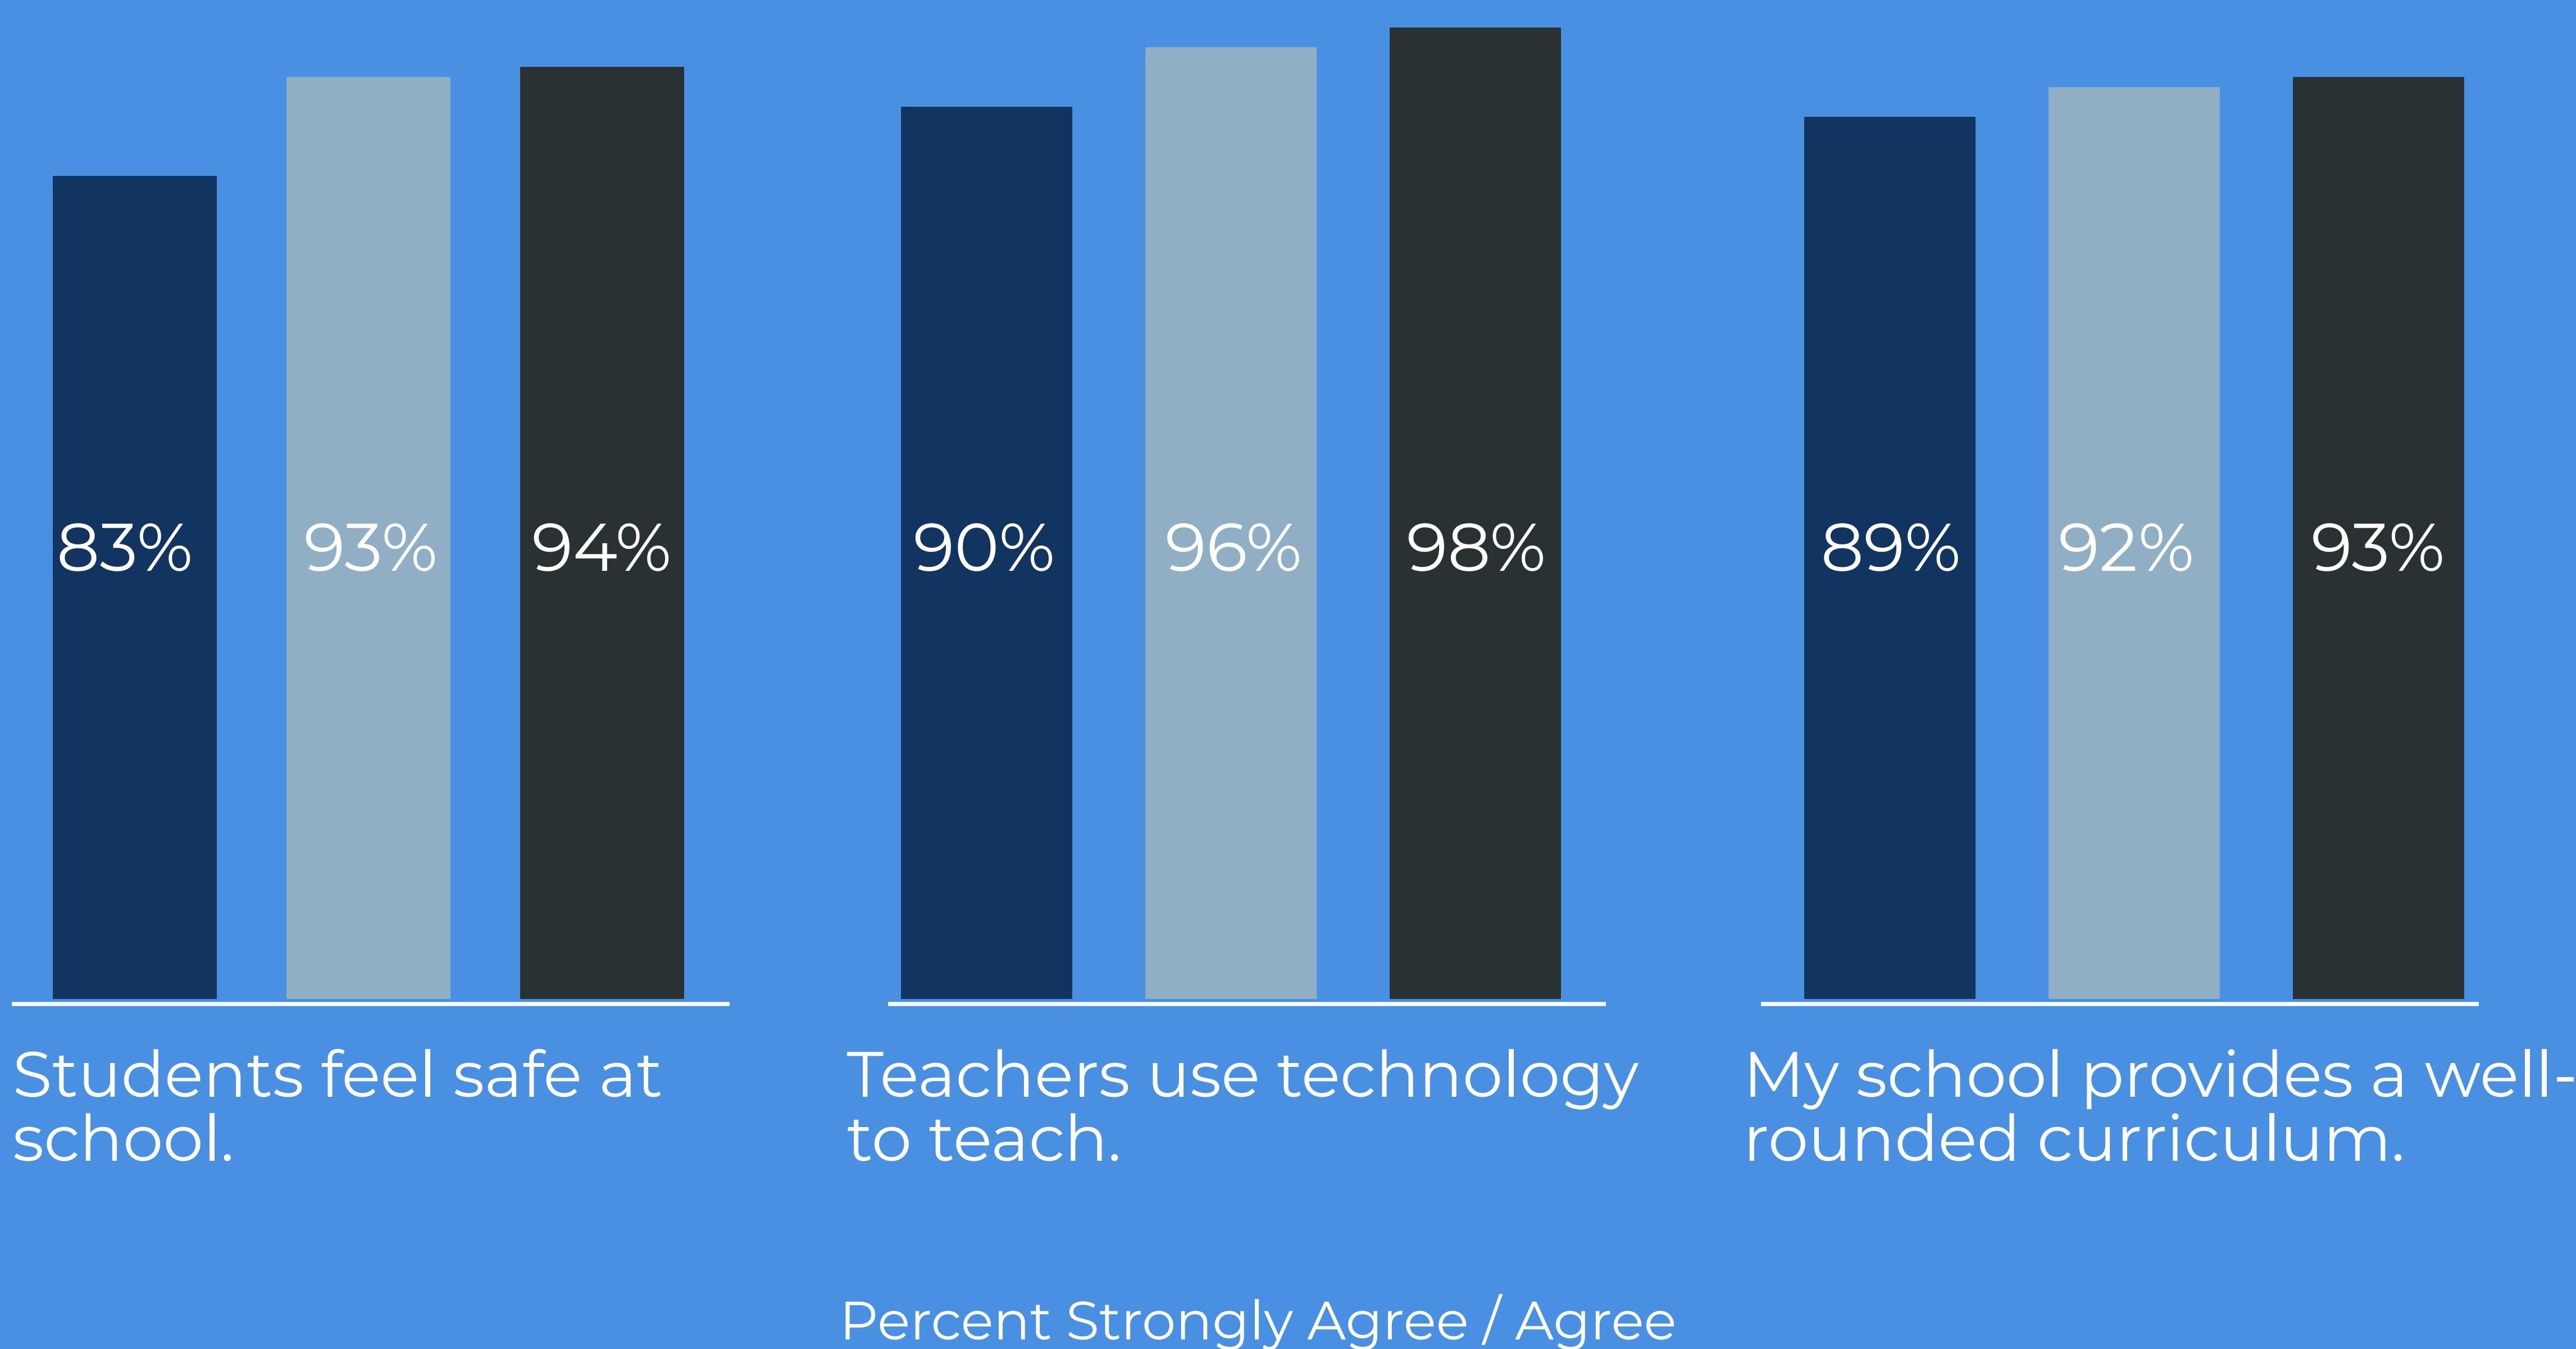

Conditions of Learning

Provide students with access to rigorous state academic standards, relevant learning tools, research-based instruction, and safe facilities; and engage educators in professional learning and communities of practice.

LCAP Survey Results

Student Parent Staff

2018-19 Stakeholder Input

- ⚙️ Continue implementing safety and security measures.
- ⚙️ Continue updating school facilities.
- ⚙️ Consider increasing communications to parents about when (days/times) students may access the district's wireless network outside of normal school hours.

2019-20 Proposed Revisions

- ⚙️ 1.1 Beyond the school day technology access for students is provided on campus through school computers and district wireless network after-school and advertised on school websites / social media.
- ⚙️ 1.5 District instructional leaders, professional development providers, and site representatives collaborate to pilot and adopt instructional materials aligned to the Next Generation Science Standards (NGSS). Schools provide students with an opportunity to engage in at least two Science, Technology, Engineering, Art and Math “STEAM” lessons or activities each year.
